

Brain Teasers!

What's a Brain Teaser?

A problem or puzzle, typically one
designed to be solved for amusement.

Often involves unconventional
thinking...

01

There are three houses. One is red, one is blue, and one is white. If the red house is to the left of the house in the middle, and the blue house is to the right to the house in the middle, where is the white house?

Jimmy's mother had four children. She named the first Monday. She named the second Tuesday, and she named the third Wednesday. What is the name of the fourth child?

Which is heavier,
100 pounds of rock or
100 pounds of feathers?

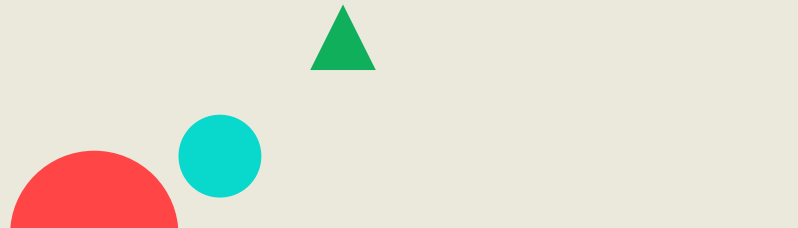

Give me food, and I
will live; give me
water, and I will
die. What am I?

I am the beginning of sorrow and
the end of sickness. You cannot
express happiness without me
yet I am in the midst of crosses. I
am always in risk yet never in
danger. You may find me in the
sun, but I am never out of
darkness.

A man stands on one side of a river, his dog on the other. The man calls his dog, who immediately crosses the river without getting wet and without using a bridge or a boat. How did the dog do it?

You're escaping a maze, and there are three doors in front of you. The door on the left leads to a pit of lava. The door in the center leads to a room filled with deadly gas. The door on the right leads to a lion that hasn't eaten in three months. Which door do you choose?

There was a man that lived in a circle house. That man got murdered. The police came. There were three suspects: the cook, the mother and the maid. The police asked them each a question, "Where were you when this happened?" The cook said, "I was cooking for him", the mother said, "I was sewing in my room", the maid said, "I was cleaning all the corners of the house." Who did it?
